

# ISAAC EDEH

## PROFILE

I am a 2D & 3D Motion Designer with a background in Graphic Design. I am a graduate of the National Film and Television School (NFTS), with a Postgraduate Diploma in Graphics and Titles. During the course I worked with Sky Creative editing promotional sports footage for the "Take Your Seat" campaign. Occasionally, I freelance producing promotional social media animations for clients. I am driven to learn more about animation techniques and styles, I am adept working on either Mac or PC. Whilst studying at NFTS, I worked part time for a medium sized superstore as Team Leader for a team of 10 colleagues. This experience has equipped me with management skills and the ability to work at pace when needed. My interests include weekly football, creating music, editing music videos and roller-skating.

## EXPERIENCE
